## EXTENDA-BAN QUICK CONNECT KIT

### USER MANUAL

### DESCRIPTION

The Extend Ban Quick Connect Kit was developed so that the operator can easily change valves in the field. It can also be used to help prevent freezing of the valve in the winter by removing the valve from your sprayer so that the valve can be drained and stored in a warm environment.

LEGACY PART #	ORDER #
22071825	1108004832

### INSTALLATION STEPS

1. Remove hose from valve using an adjustable or a suitable wrench.
2. Remove old Teflon tape from the fitting on the hose and apply new Teflon tape.
3. Assemble female quick connect fitting on the hose and tighten with a suitable wrench.
4. Assemble male quick connect fitting on gun and tighten with a suitable wrench.

*See picture below for proper configuration.*

### OPERATION

1. Slide back collar on quick connect fitting on hose and insert gun (with male quick connect fitting) into the female quick connect on the hose. Slide collar back into place so it locks.
2. To remove gun, slide back collar on quick connect fitting on the hose and remove the gun (with male quick disconnect fitting) from the hose.

### MAINTENANCE

1. Internal spring and ball may be lubricated with silicone spray. No grease needed.

### DRAINING INSTRUCTIONS

**DRAIN YOUR GUN IN WINTER TO HELP PREVENT FROM FREEZING.**

1. Remove gun from hose as outlined above.
2. Tilt gun up so that the extension is higher than the male quick connect fitting.
3. Open valve on gun and let the liquid drain out through the male connect fitting.

### WARRANTY

Pelsis products are designed and manufactured to the highest standards and deliver high-quality performance, ease of use and ease of installation. If you encounter any difficulties while using your product, we recommend that you first consult the user manual or the information in the support section of our website. In the unlikely event of a fault, please contact your retailer or distributor for further warranty information.

Any warranty claims must be supported by proof of purchase within the warranty period (product dependent), the following exclusions apply:

- Normal wear & tear.
- Damage caused by abuse, misuse, alterations or by not completing the recommended maintenance.

This warranty does not affect your statutory rights.
